The following is a summary of the resultant distribution model.

After CLA has deducted its costs, the remaining balance is distributed in the following shares:

3. UK revenue relating to copying from websites

Where websites are online or digital versions of specific magazine, journal or book titles (such as a 'soft copy' or an 'e-book'), the distribution will follow the allocation for the relevant format.

Where websites do not relate to specific magazine, journal or book titles, distribution will follow the allocation for books.

4. Revenue relating to copying from overseas works

Money attributable to the copying of overseas works are sent to the Collective Management Organisations with whom we have an agreement.
